Consider five of the serial offenders we have looked at this unit…Jack the Ripper, Pedro Alonso Lopes, Andrei Chiketilo, and any other others of your choice. Consider which (in your opinion) was worse than the others. Place them on the grid below

| Bad, but not as bad as those to the right | Really bad | Really, really bad | Nearly worse | Most horrible of them all |
|---|---|---|---|---|

Now, in the writing below, **explain precisely why you listed these five serial offenders in the order in which you did**. You writing should demonstrate you have knowledge about their crimes, and that you are processing the material and critically thinking about the values or challenge of profiling. Ok to use your lecture notes.
