

# XC National Rankings for 2024

## National XC Rankings

Some Oregonians have made the national rankings for high school cross country. The following rankings are provided by Dyestat and Athletic.Net. Student-athletes and teams are listed by their national ranking.

These DYESTAT rankings are weighed heavily toward performance in regional and national championship races, and, less so, State.

### Oregonian Girls in the Dyestat Top-100

- 24 Emily Wisniewski, Crescent Valley
- 26 Chloe Huyler, Lakeridge
- 90 Nelida Dalgas, North Salem

### Oregonian Boys in the Dyestat Top-100

- 13 Tayvon Kitchen, Crater
- 40 Josiah Tostenson, Crater
- 79 Hayden Boaz, Summit
- 92 Kellen Williams, Jesuit

### Oregon Girls teams in the Dyestat Top-30

- 25 Lincoln

### Oregon Boys teams in the Dyestat Top-30

- 20 Jesuit
- 26 Crater

These ATHLETIC.NET rankings are based solely on 5k race times posted nationally throughout the season

### Oregonian Girls in the Athletic.Net Top-100

- 4 Chloe Huyler, Lakeridge
- 8 Emily Wisniewski, Crescent Valley
- 15 Nelida Dalgas, North Salem
- 60 Maddie Carney, Caldera
- 61 Hannah Huyler, Lakeridge

### Oregonian Boys in the Athletic.Net Top-100

- 1 Tayvon Kitchen, Crater
- 2 Josiah Tostenson, Crater
- 4 Hayden Boaz, Summit
- 11 Ty Cirino, Central
- 23 Mason Morical, Caldera
- 27 Dylan Weniger, Sherwood
- 45 Malachi Schoenherr, Sheldon
- 58 Zafer Courcelle, Franklin
- 59 Sawyer Marquis, Forest Grove

### Oregon Girls teams in the Athletic.Net Top-75

- 12 Crater
- 24 Jesuit
- 33 Crescent Valley
- 40 Lake Oswego
- 45 Summit

### Oregon Boys teams in the Athletic.Net Top-75

- 3 Crater
- 8 Jesuit
- 28 Central Catholic
- 30 Ida B Wells
- 36 Lincoln
- 46 Summit

*Editors Note : The existence of these national rankings are of great service, but even they are not without fault.*

*Unlike the standardization in Track & Field, Cross Country lends itself to subjective comparisons.*

*Athletic.Net treats all courses as equal 5k's and does not discriminate between 'fast' or 'slow' venues, flat or hilly, all-terrain or mostly-pavement; not all states run 5k as the standard race distance (Utah, Illinois, Louisiana and Maryland run 3 Miles at their State meet), and; while nearly 100% of schools with teams have at least one mark recorded through the site, some meets may not be included there. The Dyestat rankings, by comparison, are rooted primarily in athletes head-to-head performance in a months-worth of regional and national post-season championship meets (and to a lesser extent, State Championships), a standard which may harm the potential ranking of the many athletes who do not compete beyond State, or who find the maintaining of an athletic peak post-State problematic.*

*The editors of Who's Who reserve judgement as to which ranking is stronger, and instead offer both of the rankings above.*
